Investment Holding Limits

The Trustee has set limits on how much you can invest in certain investment options (including categories of investments within certain investment options). These limits take into account liquidity, diversity and risk and are expressed as 'Single security limits'. If the value you hold in a particular investment option (per Advised Account) or Non-Advised Account ('Account') exceeds the investment holding limit, you will not be able to make further investments into that particular investment option until the value of your holdings moves below the investment holding limit.

Investments in Managed Accounts are not excluded from your Portfolio when determining whether your investments (per Account) are within any applicable investment holding limit.

Single security limits are summarised in the table below.

Investment options	Single security limits ¹
Managed Funds (excluding alternative Managed Funds ²)	Up to 100% of your Account
Managed Accounts	Up to 100% of your Account
Alternatives (including alternative Managed Funds, alternative ETFs and alternative ETPs ²)	Up to 25% of your Account

¹ These are the maximum single security limits allowed per investment option. The Trustee has the discretion to set lower single security limits which may change from time to time.

² Alternative Managed Funds include commodity-based investments (for example, gold) and hedge fund strategies including long/short and absolute return type strategies.

This section outlines investment limits determined by the Trustee. There may be investment limits set by issuers or managers of Accessible Investments including Managed Accounts. For further information, you should refer to the applicable Disclosure Document which can be accessed from this Guide.
