Within the **Platformplus Super WRAP – Select Menu**, the investment options may include Cash, Managed Funds, Managed Accounts, Australian listed securities and Term Deposits.

Within each investment option, a range of Accessible Investments may be made available.

Before choosing your investments, it is important you understand your personal investment strategy including your investment objective, the timeframe you wish to invest and the level of risk you are comfortable with. See below for more information about formulating an investment strategy, subject to any investment holding limits.

Investment Holding Limits

The Trustee has set limits on how much you can invest in certain investment options (including categories of investments within certain investment options). These limits take into account liquidity, diversity and risk and are expressed as 'Single security limits'. If the value you hold in a particular investment option (per Advised Account) or Non-Advised Account ('Account') exceeds the

investment holding limit, you will not be able to make further investments into that particular investment option until the value of your holdings moves below the investment holding limit.

Investments in Managed Accounts are not excluded from your Portfolio when determining whether your investments (per Account) are within any applicable investment holding limit.

Single security limits are summarised in the table below.

Investment options	Single security limits¹
Managed Funds (excluding alternative Managed Funds ³)	Up to 100% of your Account
Listed Investments (ETFs, ETPs and LICs)	Up to 100% of your Account
Australian securities listed in S&P / ASX All Ordinaries ² (excluding ETFs, ETPs and LICs)	Up to 20% of your Account
Australian securities listed outside S&P / ASX All Ordinaries (excluding ETFs, ETPs and LICs)	Up to 10% of your Account
Managed Accounts	Up to 100% of your Account
International Securities listed or represented in MSCI World Index	Up to 20% of your Account
International Securities listed outside MSCI World Index	Up to 10% of your Account
Alternatives (including alternative Managed Funds, alternative ETFs and alternative ETPs ³)	Up to 25% of your Account

¹These are the maximum single security limits allowed per investment option. The Trustee has the discretion to set lower single security limits which may change from time to time.

²Includes Australian direct interest rate securities issued by a company listed on the S&P/ASX All Ordinaries Index. An Australian direct interest rate security (for example a hybrid security, and/or corporate bond) issued by a company listed on the S&P/ASX All Ordinaries Index will have the same investment holding limit applied as if it were an ordinary security, if the security ranks ahead of the ordinary shareholders in the event of an insolvency.

³Alternative Managed Funds, alternative ETFs and alternative ETPs include commodity-based investments (for example, gold) and hedge fund strategies including long/short and absolute return type strategies.

This section outlines investment limits determined by the Trustee. There may be investment limits set by issuers or managers of Accessible Investments including Managed Accounts. For further information, you should refer to the applicable Disclosure Document which can be accessed from this Guide.
